# LUBRICANTS

### FVP Belt Dressing

FVP Belt Dressing helps condition all types of “V” belts, both new and old. Belts not conditioned tend to glaze and eventually crack leading to premature failure. In addition, car owners especially find noisy belts bothersome and annoying. FVP Belt Dressing eliminates these problems by eliminating squeaking and slipping. It also preserves belts and increases friction coefficient.

- Increases friction to eliminate squeaking, chatter and slipping
- Preserves belts to prevent glazing and premature failure
- Promotes better grip
- For use with accessory drive and all types of “V” belts

### FVP Chain Lube

FVP Chain Lube features the use of a high concentration of Moly Sulfide, anti-wear additive and a tackiness agent. The FVP Chain Lube formulation provides the user with the ultimate in lubrication qualities along with a special property that prohibits the product from “flying off” under high velocity applications. This product is designed for use on the chains of all chain-driven vehicles, including Motorcycles, ATVs, Bicycles and antique chain drivecars and trucks.

### FVP Multi-Purpose White Lithium Grease with PTFE

Offers superior lubrication for auto, home, indoor and outdoor uses as a penetrating grease that will not run, wash off or freeze. Reduces friction in all metal-to-metal applications. Protects against rust and corrosion.

### FVP Penetrating Oil

FVP Penetrating Oil has many automotive, home and mechanical applications. Not only does FVP Penetrating Oil stop squeaks, it also helps protect metal surfaces and loosens rusted parts. FVP Penetrating Oil also removes tar and grease.

### FVP Silicone Lubricant

FVP Silicone Lubricant is a thick viscosity, heavy-duty silicone that is specially formulated without the use of ozone depleting chlorinated solvents. Perfect for metal to non-metal contact. Lubricates and prolongs the life of weather stripping on hoods, trunk lids, doors and windows. Prevents squeaks, freezing and sticking of rubber. Keeps battery terminals and cases clean, minimizes corrosion, prolongs battery life. A good electrical insulator that helps prevent electrical losses. Works well to weather proof ignition systems, plus insulators and distributor caps. Improves radio reception, lubricates antennas, seals out moisture and keeps antennas shiny. Lubricates door locks and prevents freezing.

#### PRODUCT SPECIFICATIONS

Belt Dressing	FVPBD-7	7 oz.
Chain Lube	FVPCHL-10	10 oz.
Penetrating Oil	FVPPENOIL-11	11 oz.
Silicone Lubricant	FVPPSS-10	10 oz.
White Lithium Grease	FVPWGLS-13	13 oz.
