

SAFETY DATA SHEET

FVP 75W-140 Full Synthetic LS Gear Oil

Section 1. Identification

| GHS product identifier | : FVP75W-140 Full Synthetic LS Gear Oil |
|----------------------------------|---|
| Product code | : FVP75W140-5GAL |
| Other means of identification | : Not available. |
| Product type | : Liquid. |

Relevantidentifiedusesofthesubstanceormixtureandusesadvisedagainst

| Identified uses | | | |
|---|---|--|--|
| Consumer products: Lubrica Industrial applications: Lubric | | | |
| Uses advised against | Reason | | |
| All other uses. | | | |
| Supplier's details | : Factory Motor Parts 1380 Corporate Center Curve, #200 Eagan, MN 55121 866-387-3343 | | |
| 24hr. CHEMTREC 1-800-424-9300 / International 1-703-527-388 | : 24 hr. CHEMTREC 1-800-424-9300 / International 1-703-527-3887 | | |
| Section 2. Hazard | ds identification | | |
| OSHA/HCS status Classification of the substance or mixture | While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product. Not classified. Percentage of the mixture consisting of ingredient(s) of unknown toxicity: 24.4% Percentage of the mixture consisting of ingredient(s) of unknown hazards to the aquatic environment: 24.4% | | |
| <u>GHSIabelelements</u> Signal word | : No signal word. | | |
| Hazard statements | No known significant effects or critical hazards. | | |
| Precautionarystatements | | | |
| General | Read label before use. Keep out of reach of children. If medical advice is needed, have product container or label at hand. | | |
| Prevention | : Not applicable. | | |
| Response | : Not applicable. | | |
| Storage | : Not applicable. | | |
| Disposal | : Not applicable. | | |
| Hazards not otherwise classified | : None known. | | |

Section 3. Composition/information on ingredients

Substance/mixture Other means of identification

: Mixture

: Not available.

CASnumber/otheridentifiers

| CAS number | : Not applicable. | | |
|-----------------------------------|------------------------|-----------|------------|
| Ingredient name | | % | CAS number |
| Distillates (petroleum), hydrotre | eated light paraffinic | ≥50 - ≤75 | 64742-55-8 |

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

Descriptionofnecessaryfirstaidmeasures

| Eye contact | : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs. |
|--------------|--|
| Inhalation | : Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. |
| Skin contact | Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. |
| Ingestion | Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur. |

Mostimportantsymptoms/effects.acuteanddelayed

| Potentialacutehealtheffects | | | | |
|-----------------------------|---|--|--|--|
| Eye contact | : No known significant effects or critical hazards. | | | |
| Inhalation | : No known significant effects or critical hazards. | | | |
| Skin contact | : No known significant effects or critical hazards. | | | |
| Ingestion | : No known significant effects or critical hazards. | | | |
| Over-exposuresigns/symptoms | | | | |
| Eye contact | : No specific data. | | | |
| Inhalation | : No specific data. | | | |
| Skin contact | : No specific data. | | | |
| Ingestion | : No specific data. | | | |

Indicationofimmediatemedicalattentionandspecialtreatmentneeded.ifnecessary

| Notes to physician | : Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. |
|----------------------------|--|
| Specific treatments | : No specific treatment. |
| Protection of first-aiders | : No action shall be taken involving any personal risk or without suitable training. |

See toxicological information (Section 11)

Section 5. Fire-fighting measures

| Extinguishingmedia | |
|--|---|
| Suitable extinguishing media | : Use an extinguishing agent suitable for the surrounding fire. |
| Unsuitable extinguishing media | : Do not use water jet. |
| Specific hazards arising from the chemical | : In a fire or if heated, a pressure increase will occur and the container may burst. |
| Hazardous thermal decomposition products | : No specific data. |
| Special protective actions for fire-fighters | Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. |
| Special protective equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. |

Section 6. Accidental release measures

| Personalprecautions.protectiveequipmentandemergencyprocedures | | |
|---|-----|--|
| For non-emergency personnel | : | No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment. |
| For emergency responders | : | If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel". |
| Environmental precautions | : | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). |
| Methodsandmaterialsforcont | ain | mentandcleaningup |
| Small spill | : | Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor. |
| Large spill | : | Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |

Section 7. Handling and storage

| Precautionsforsafehandling | |
|--|---|
| Protective measures | : Put on appropriate personal protective equipment (see Section 8). |
| Advice on general occupational hygiene | : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures. |

Section 7. Handling and storage

| Conditions for safe storage, | 1 | Store in accordance with local regulations. Store in original container protected from |
|------------------------------|---|---|
| including any | | direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials |
| incompatibilities | | (see Section 10) and food and drink. Keep container tightly closed and sealed until |
| | | ready for use. Containers that have been opened must be carefully resealed and kept |
| | | upright to prevent leakage. Do not store in unlabeled containers. Use appropriate |
| | | containment to avoid environmental contamination. |

Section 10. Stability and reactivity

| Reactivity | : No specific test data related to reactivity available for this product or its ingredients. |
|------------------------------------|--|
| Chemical stability | : The product is stable. |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur. |
| Conditions to avoid | : No specific data. |
| Incompatible materials | : No specific data. |
| Hazardous decomposition products | : Under normal conditions of storage and use, hazardous decomposition products should not be produced. |

Section 13. Disposal considerations

| Disposal methods | : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. |
