

## DEIONIZED WATER

FVP Deionized Water (DI) is recommended for use with full strength coolants. Auto manufacturers require DI water with their coolants.

**Features and Benefits:**

- Will not cause corrosion
- Free of minerals found in tap water that are harmful to radiators and cooling systems – especially important since water quality varies across the country
- Great for use with full strength coolants
- Available in 1 gallon jugs and 55 gallon drums

**1 Gallon Jug Part #: DIWATER-1GAL**

**Unit UPC: 0-73926-28012-2**

**Pk/Sz: 6/1 gal**

**Cases per pallet: 35**
