

FVP CABIN AIR FILTERS

WE HAVE THE RIGHT FILTER FOR WHATEVER YOU DRIVE

The cabin air filter is designed for capturing contaminants like dust, pollen, bacteria and exhaust gases before they enter a vehicle interior.

In order to help to protect passengers' from toxic contaminants, FVP offers a comprehensive range of cabin air filters in original equipment quality and specifications. FVP Cabin Air Filters are manufactured in strict accordance with the ISO9001 Quality Management System.

Cabin Air Filters are an important maintenance item that should be inspected and/or replaced annually or every 12,000 - 15,000 miles based on driving conditions.
