

DIESEL EXHAUST FLUID (DEF)

FVP Diesel Exhaust Fluid is formulated using only high-purity urea and pure water. It is approved for use in all SCR equipped cars, trucks, and power generators. Each jug comes with a spout to reduce the chance of contamination.

Advantages of FVP DEF:

- FVP DEF is formulated using only high-purity urea and pure water
- Approved for use in all SCR-Equipped cars, trucks and power generators
- FVP DEF has virtually no ammonia smell due to a low temperature blending method. Other Diesel Exhaust Fluids have a very strong and distinct ammonia odor.
- Comes Pre-Diluted – No Mixing
- ISO 22241 Certified

Composition of Ingredients

Ingredients	#CAS	Percent
Water	7732-18-5	67.5
Urea	57-13-6	32.5

DEF Consumption Chart

DEF usage as a % of fuel consumption	1%	2%	3%
Vehicle MPG	Approximate miles of service from 1 gallon of DEF		
6	600	300	200
7	700	350	230
8	800	400	260
9	900	450	300

*OEM estimates vary from 1-3%. Consumption will vary based on make, model & duty cycle
