

The Confident Solution.™

FUEL TREATMENT

FVP Carburetor & Fuel Injector Cleaner is specially formulated to help prevent build-up of performance reducing deposits such as dirt, gum and varnish from fuel injectors and carburetors. Also aids in removing water from gas tank. Smooths rough idle and eases hard starts. Fights power loss and reduces exhaust emissions. Protects against fuel system rust and corrosion. Formulated to reduce engine friction and improve fuel economy.

FVP Fuel Injector Cleaner provides increased power and acceleration, improved idling, quicker starting and reduced emissions. Effective in all types of fuel injected cars and trucks. Helps remove harmful deposits as you drive. Will not harm catalytic converters or oxygen sensors, For use in all grades of gasoline, ethanol blends and diesel fuels.

FVP Octane Treatment is a scientifically formulated fuel additive that when added to leaded or unleaded gasoline will reduce engine knock and ping, improve combustion and protect fuel system from corrosion. Will not harm catalytic converters. Helps prevent fuel system from freezing. Cleans carburetor and fuel system.

FVP Gas Treatment is an entirely new development for all grades of leaded and unleaded gasoline adding up to a definite improvement for maximum fuel economy and extended engine life. Improves combustion. Helps extend spark plug life. Prevents fuel system rust and corrosion. Completely compatible with catalytic converters and smog control devices.
