

The Confident Solution.®

CONDENSERS

**Now Covered By a
Limited Lifetime
Warranty**

Preventing cooling system problems begins with superior quality parts. FVP condensers are engineered for OE form, fit and function. They meet or exceed OEM standards. FVP Condensers are technically advanced resulting in a long service life.

- All FVP Condensers feature louvered fins and tubes that allow for more “surface to air” area for maximum heat transfer
- All FVP Condensers feature the highest quality aluminum construction that improves performance and service life
- All FVP Condensers are treated with a special Zinc coating to prevent corrosion and to extend the life of the condenser
- Each FVP Condenser is individually pressure tested to guard against ruptures
- Coverage for over 97% of the vehicles on the road today
- FVP Condensers are backed by a limited lifetime warranty
