HIGH MILEAGE MOTOR OIL

ADVANCED PROTECTION AGAINST THERMAL BREAKDOWN

FVP High Mileage Motor Oils are specially formulated from a proprietary combination of premium synthetic-blend base stocks and advanced additive technology to deliver superior protection for gasoline engines with 75,000 miles or more. FVP High Mileage Motor Oils features a state-of-the-art additive system that contains active cleaning agents to maintain performance in older engines.

FVP High Mileage Motor Oils are recommended for gasoline engines with 75,000 miles or more in passenger cars, SUVs, light vans and light trucks. The applications include GDI (Gasoline Direct Injection), multi-valve fuel injected, carbureted, turbocharged, and supercharged engines. Always consult your owner's manual for recommendations.

- Optimized with low coefficient of friction for increased fuel efficiency and engine power output
- Superior wear protection for aged engines operating in harsh and demanding applications
- Advanced detergents minimize deposits and maximize engine power and efficiency
- Robust oxidative stability provides maximum resistance to high-temperature thermal breakdown to minimize engine wear
- Improved Low Speed Pre-Ignition (LSPI) protection to provide protection to engine components and maximize engine life
