

FULL SYNTHETIC 0W-40 EUROPEAN FORMULA MOTOR OIL

FVP Full Synthetic European 0W-40 Motor Oil delivers unsurpassed protection and performance formulated for today's engines while handling the most severe and extreme conditions. Engineered to improve fuel mileage and to maximize horsepower and acceleration, especially in higher rpm and turbocharged engines. With longer and better engine protection than conventional oils due to strong and uniform synthetic base oils and advanced molecules that provide a strong film barrier to control friction, resist wear and keep metal surfaces from coming into contact. Provides extended oil change intervals.

FVP Full Synthetic European 0W-40 Motor Oil provides protection for turbochargers and emission control system catalysts. FVP Full Synthetic European 0W-40 Motor Oil is formulated for gasoline- or diesel-fueled European passenger cars, light trucks and sport utility vehicles requiring:
