

The Confident Solution.™

VoltEdge
BATTERIES

MARINE AND RV BATTERIES
MAXIMUM DURABILITY. PEAK PERFORMANCE.
LATEST IN ANTI-VIBRATION TECHNOLOGY.

Our brand is your reputation, and FVP VoltEdge® Marine and RV batteries are specifically engineered to withstand extreme vibration, stress and perform under the most demanding conditions. Exclusively distributed by Factory Motor Parts, FVP VoltEdge® is available in deep cycle, marine starting , AGM and dual purpose applications providing a confident solution for your boating and RV needs. Each battery utilizes stamped grid technology with a special, thicker plate and twin terminals for superior construction. A low resistant envelope separator with glass mat and reinforced container provides the latest in anti-vibration technology. With a longer life and high cycle stability, the flexible design allows for maximum performance. Additionally, all FVP VoltEdge® Marine and RV high performance batteries feature:

- Simple and convenient hydrometer "charge-eye" monitoring.
- Superior strength and corrosion resistant wrought calcium, high tin grid alloys.
- Patented secondary maintenance free cover with durable polypropylene case.
- Corrosion eliminating cold forged terminal bushings.
- Exclusive "spun-bonded" paper.
- Safe and user-friendly integrated fold-down handle that can withstand double the battery weight.
- Hassle-free 18-month replacement warranty.
